

**NOTICE OF AND REQUEST FOR  
RESTRICTIVE PURCHASE OF SERVICE  
PURSUANT TO §103F-403, HRS**

STATE PROCUREMENT OFFICE  
STATE OF HAWAII

To: Chief Procurement Officer

From: Health/Family Health Services Division/MCHB/WHS/Family Planning  
Program (FPP)

*Department/Division/Branch or Office*

Pursuant to §103F-403, HRS, and Chapter 3-144, HAR, the department head has made a determination that an adequate basis for a restrictive purchase of services exists and requests approval to make a restrictive purchase for the following:

1. Title and description of health and human service(s):	
<p>The Male Achievement Network (MAN) Program, of the Federal Title X Family Planning Program(FPP), is an ongoing 16 week skill-based health education program for males most likely to be engaging in high-risk behaviors. The goal of MAN is to prevent unintended pregnancies and sexually transmitted diseases (STDs) including HIV/AIDS through male involvement and education. In addition to family planning (FP) and contraceptive knowledge, MAN participants must receive training in the development of communication skills and self-sufficiency in preventive health care, including consistent condom use for males and consistent contraceptive use for females. Pre-tests and post-tests shall be administered to ensure that services were provided in accordance with planned outcome measures. Incentives for encouraging program participation shall be used. Community-based health education services for high-risk males must be conducted in locations such as youth correctional facilities, detention homes, middle and high schools, and alternative learning centers. A minimum of 1,500 direct contracts with males shall be made annually. Quarterly reports shall be submitted to Department of Health's (DOH's) FPP documenting the number of clients and presentations to males.</p>	
2. Provider Name and Address:	<p>Waikiki Health Center (WHC) 2770 Ohua Avenue Honolulu, Hawai'i 96815</p>
3. Total Contract Funds:	\$24,000
Contract Funds per Year (if applicable):	\$24,000
4. RH No. of Previous Request for this Service (if applicable)	09-09, 06-13
5. Term of Contract:	<p>Start: July 1, 2010      End: February 28, 2011</p> <p>If the contract term is longer than 1 year, provide justification for the extended term:</p> <p>The original RH No. 06-13 restrictive purchase was approved for the period 7/1/06 - 7/1/09. RH No. 09-09 was approved for the period 7/1/09 - 6/30/10 to extend the restricted approval to complete and wrap up the Project. However, the contractor and FPP needs additional time to complete the evaluation and collect more data. The DOH FPP has budgeted Title X Funds for FY 2011 which assures resources for the extension of this WHC contract for an additional eight months, for the following additional purposes:</p> <ul style="list-style-type: none"> <li>1) to complete the evaluation, and</li> <li>2) to analyze and summarize the approaches and their impact.</li> </ul>

RESTRICTIVE PURCHASE OF SERVICE  
PURSUANT TO §103F-403, HRS

6. Describe the circumstances justifying a restrictive purchase:

The restrictive purchase was originally extended on 06/26/09 because the DOH FPP wanted an evaluation of the Program conducted so that MAN's approaches, curriculum, and lessons learned could be shared with other Title X contracted community health educators to possibly implement similar programs themselves. The evaluation commenced in September of 2009 and a formal evaluation report with findings and recommendations was completed in December of 2009. The evaluation was limited due to the availability of minimal quantitative data. The DOH FPP, in collaboration with WHC, would like to expand the evaluation and collect more data. Qualitative data collection methods would include focus groups and/or key informant interviews with male program participants to get a better picture of the effects of the MAN Program, as well as information for future planning of male programs. A recommendation in the evaluation was to decide on a specific curriculum or set of lesson plans that could then be tied to valid pre- and post-tests. A review of science-based male curricula that is available would be done, and findings would be brought to focus groups and/or interviews to get male participant feedback. Qualitative data, which would include recording such as transcribing of group and/or interview discussions, to serve as a preliminary assessment that could be used in designing future steps of a comprehensive male initiative throughout the entire family planning program. Findings of the formal evaluation report would be used to guide additional evaluation activities and some of the recommendations would be put into practice and measured. This would allow the DOH FPP to produce more valid tools and approaches to share with the community health educators.

7. Describe the efforts and results in determining that this is the sole provider who can render services. Include approximate dates:

In March 2006, the DOH's FPP assessed Title X FP service providers providing FP health education and male reproductive health services and determined that the Youth Outreach (YO) Program Coordinator is the only male health educator. Title X service providers are the only providers eligible to participate in the program. Training in MAN is a prerequisite for implementation of this program. Lack of funding prevents the State from sending staff to the mainland for the Colorado-based training program. YO's Program Coordinator has extensive training in MAN at the training site in Colorado and developed the program for high-risk males in Hawai'i. The WHC's YO Program is the only agency with the infrastructure to provide these unique MAN services.

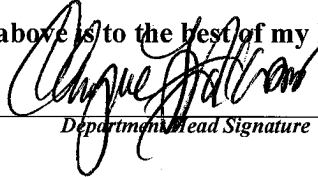

8. List state agency personnel, by position title, who will be involved in the approval process and administration of the contract:

Naomi Chinen, DOH Contracts Specialist  
Barbara Yamashita, MCH Branch Chief  
Candice Calhoun, Women's Health Section Supervisor  
Leonard Young, Family Planning Program Manager  
Misty Pacheco, Family Planning Health Educator
